

IT coordinator & sysadmin | Web developer | Search engine QA specialist

About me

Hi! I'm Adrian, an IT coordinator & sysadmin based in Madrid, Spain. Currently managing IT infrastructure for a municipality near Madrid — endpoint management, security, backups, compliance, and everything in between.

Background in web development and systems programming, with 14+ years of remote work, including 12+ in search engine quality assurance. I enjoy building reliable systems, documenting what matters, and making technology work for people who aren't technical.

Technical skills

Languages

C · JavaScript · Python · HTML5 · CSS3 · SQL

Technologies & tools

- **IT infrastructure:** Windows 11, Linux (Debian/Mint/Arch), endpoint management, hardware repair
- **Security:** Kaspersky KSOS, Zscaler DNS filtering, UFW, DeepFreeze/overlayfs
- **Backup & recovery:** Duplicati, Filen.io, HTTrack, GitHub
- **CMS & web:** WordPress, Joomla, Django, Astro, Bootstrap, Tailwind CSS
- **Version control:** Git, GitHub
- **Databases:** MySQL, SQLite
- **Compliance:** ENS (Esquema Nacional de Seguridad), GDPR/RGPD
- **Concepts:** Data structures, algorithms, memory management, networking

Professional experience

Gascones municipality

IT coordinator & systems administrator | Nov 2025 – Present

Sole on-site IT resource for a small municipality near Madrid, managing the full technology stack across all municipal departments.

- Endpoint management: ~16 endpoints — Windows 11 Pro workstations and a Linux Mint deployment for public-access use (library), avoiding additional licensing costs
- Public-access machines hardened with DeepFreeze/overlayfs (3 Windows + 1 Linux Mint)
- Security: Kaspersky KSOS, Zscaler DNS filtering, antivirus policy and incident response
- Backup systems: Duplicati + Filen.io, HTTrack, GitHub, local redundancy
- Leading a Joomla → WordPress hosting migration and provider transition
- Deployed Sesame HR system organisation-wide (geolocation, leave management, multi-entity)
- Rolled out OCR solution with custom batch scripts, deployed across all departments
- Working towards ENS basic category compliance; RGPD-compliant procedures and staff guidance
- Vendor and supplier management; user support across all departments and public-facing citizen assistance
- Supervising 2 IT placement students

Groundforce España

Ground handling agent | Mar 2025 – Jul 2025

- Passenger check-in and boarding gate management at Madrid-Barajas airport
- Worked with complex airline registry systems tracking passengers, boarding, and acceptance status in real time
- Fast-paced, customer-facing role with strict time and compliance requirements

Lionbridge Technologies / Telus International

Search engine QA specialist | Nov 2011 – May 2024 · 12 yrs 7 mos · Freelance · Remote

- Quality assurance for search engine ranking and content quality across multiple concurrent projects
- Assessed relevance across diverse content types: web pages, images, videos, and product listings
- Verified factual accuracy and evaluated content credibility against detailed, evolving quality guidelines
- Consistently exceeded quality targets, earning performance bonuses on multiple occasions
- Applied EN ↔ ES translation and bilingual content evaluation across Spanish-market tasks

Freelance web developer

Web design & development | Dec 2017 – Feb 2019

- Full-stack web development for multiple clients, handling projects end to end from brief to deployment
- Led recovery after a client security breach: restored backup, rebuilt lost content, and hardened the installation
- Managed Google Ads and Analytics campaigns across international markets, improving engagement by up to 30%
- Designed logos and visual identity for two clients

Selected projects:

- natural-acupuncture.com - Performance optimization, SEO, site migration
- acupunturanatural.com - Site optimization and maintenance
- acupuntura-natural-colombia.com - Full site setup and maintenance
- sanadayana.com - Logo design and business advice
- luisbomati.es - Logo design, site design and development
- adrianskar.com - Personal portfolio (currently under development)

Featured projects

Systems programming

- [libft](#) - Custom C library covering string manipulation, memory operations, linked lists, and I/O. Focuses on memory safety, proper error handling, and understanding standard library internals.
- [get_next_line](#) - Line-by-line file reader using linked lists for multi-file descriptor support. Implements efficient buffer management and static variables for state persistence.
- [ft_printf](#) - Printf reimplement using function pointer dispatch tables and variadic functions. Handles 9 format specifiers with proper type conversion and base operations.
- [Born2beRoot](#) - Secure Debian server setup with encrypted LVM, SSH hardening, UFW firewall, sudo policies, and automated system monitoring script.

Web development

- [Devvy](#) - Developer reference platform (Django + JavaScript)
- [Tesla landing clone](#) - Modern landing page with Astro + Tailwind CSS

Education

Certificado de profesionalidad — Sistemas de gestión de información (IFCD0211)

Butarque vocational training centre | Oct 2025 – Jun 2026

- Official vocational qualification in information systems management
- Centre certificate received June 2026; official Comunidad de Madrid diploma pending

42 Madrid

Software engineering — C programming | 2024

- Intensive peer-to-peer systems programming curriculum in C, no instructors or lectures
- Built a custom C library, a `printf` reimplementation, and a hardened Debian server ([projects above](#))
- Emphasis on memory management, teamwork, and fully self-directed learning

Harvard CS50W

Web programming with Python and JavaScript | 2021

- Completed capstone project: [Devvy](#)
- Full-stack development with Django and JavaScript

freeCodeCamp

JavaScript algorithms and data structures certification | 2021

- [View certificate](#)

Additional training

- [JS30's vanilla JavaScript challenge](#) @Wes Bos | 2023
- [Git, GitHub & SourceTree](#) @Keepcoding | 2020
- [Relational databases, SQL & MySQL](#) @Keepcoding | 2020
- [Data warehousing & BI \(IFCD013PO\)](#) @Hazerta | 2020
- [Computing & networking essentials](#) @Pluralsight | 2020
